

# Prefab module

ART. NO. 118545, 118546

Prefab module adapted for installation in the EcoNordic WH4 installation module, which produces a simple, elegant and cost-effective installation.

The high quality components are placed so that servicing can easily be carried out as required. A magnetite filter is included as standard.

The Prefab module can also be supplemented with an expansion kit for the domestic water loop (grey tank). This must be ordered separately (Art. no. 118546).

The opening pressures for the safety valves are 2.5 bar (heating) and 7 bar (domestic water).

*Prefab module with expansion tank for domestic water*

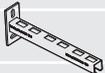

- Simple installation saves time
- Elegant, quality-assured installation
- Service-friendly
- Compact – saves space
- Top quality components
